Admin Area

- Admin has all the rights
- Admin can add a category of video/image. (If user select other then he can add the custom category)
- Admin can disable or remove the video. (Video/image will remove for user only)
- Admin can remove any users while competition gives reason.
- Promotion stickers need to add on video dynamically from the backend.
- In the Promotion sticker add a limit for how many videos we will add that sticker and on which category video.

Advertisement

- Admin can add video/image from the admin area, Also how many seconds after the user can close the ads scroll it.
- While create advertisement we have to give then option
 - Image/video , duration after can skip ads, how many posts after it will display, schedule and expiry date of the ads, can stop ads from backend.

Configuration Page :

- Max image size for feed
- Min-Max video duration for feed
- Preloader
- Background image for desktop, mobile, tab.
- Can enable/disable login options.
- Can enable/disable payment Gateways options.
- Can change logo from admin.

NOTE :

- EVERYTHING IS SIMILAR TO WHATSAPP AND INSTAGRAM.
- IT SHOULD BE USER FRIENDLY AND **SEO FRIENDLY**.
- YOU HAVE TO FOLLOW **CRUD** EVERYWHERE (DON'T THINK ADD MEANS ONLY ADD YOU HAVE TO PERFORM CRUD)
- CODE SHOULD BE OPTIMIZED, PROPER.
- **I'LL SHARE WITH YOU IF I MISSED ANY FEATURES.**
